Family History:

Fernanda is the youngest of three siblings. She is 5 years old and this year she will attend the initial stage of school. She is a very dreamy girl and loves to study. She lives with her father and her two brothers in a single small wooden room and they all sleep in a single bed. The children's mother has abandoned them for more than two years and the father is the one who has taken charge since then. The father works as a construction helper but what he earns is not enough to support the children, so he needs help providing basic food for his children.
